Our Testimonials

“This cream has been a miracle for me. I am now recommending it to others!” J.B., Los Angeles, CA

“Jeans Cream was significantly more effective than hydrocortisone.” M.J., Boston, MA

“Jeans Cream is one fabulous product, so soothing and healing. I felt relief the morning after my first nighttime application. Get this product out there!” M.A., St James, NY

“I can now sit, and lie on my back and sides, this stuff is a miracle.” A.B., Colorado Springs, CO

“Thank you for your efforts to help other people and give them some quality of life again.” E.V., Ontario, CANADA

“The woman I gave the remainder to had an even more phenomenal experience. She had begun to peel and your cream stopped the peeling!!” D.J., Kansas City, KS

“I was given your cream. It is every bit as fabulous as they told me. I used it all weekend and it seemed to make my burn nearly disappear.” D.J., Exeter, NH

“Congratulations! This appears to be an amazing product. I admire your efforts to create such a wonderful product.” E.L., Monterey, CA

FAQS

Does Jeans Cream contain any perfume?

No. Jeans Cream is high-potency Vitamin E and Aloe and does not contain perfume, petroleum, lanolin or parabens.

How often and when should I apply Jeans Cream?

Jeans Cream is best applied thinly at least twice a day, most importantly an application at bedtime.

Can I use Jeans Cream on my child or on my pet?

Yes, Jeans Cream is safe for children and pets.

Is Jeans Cream mild enough for mucous membrane areas?

Yes, Jeans Cream is used by hospitals for wound care and mucous membrane irritations.

How much does Jeans Cream cost?

Jeans Cream costs \$45 for a 7-OZ and \$21.50 for a 2-OZ tube, due to the quality of product and formula.

Is Jeans Cream covered by insurance?

No. Jeans Cream is an over-the-counter cream.

Is Jeans Cream available locally?

In some places. Your nurse or doctor will know if you can purchase it locally. Otherwise, you can order on our website www.jeanscream.com, or by calling 1-800-276-6116. It usually ships within 48 hours. Shipping charges apply.

What kind of radiation therapy warrants Jeans Cream?

All kinds of external beam such as head and neck, breast, lung, prostate, etc.

How long does a bottle last if doing radiation therapy?

The new 7-OZ size should last for 35-40 typical single-site treatments, including application for several days prior to and following treatment. The 2-OZ size should last for 10-15 treatments.

Your skin is the largest organ in your body and you want it to be healthy. When skin has been damaged or is under stress, the effect can be redness, soreness, itchiness, bumps, rashes, and/or heat, which often creates the impulse to scratch. But scratching further damages the epidermis and in certain instances may even further complicate the condition with risk of infection. If this happens, you might feel extremely uncomfortable, restlessness, and unable to sleep soundly.

Jeans Cream can provide relief by helping to maintain the integrity of your skin with a custom-blended combination of Aloe Vera and Tocopheryl Acetate (Vitamin E). It is unlike any other product to help moisturize, heal, and fight infection-causing bacteria.

By applying Jeans Cream as a preventative, you may avoid irritation altogether. If the skin is already damaged, an application of Jeans Cream usually offers relief right away and lessens associated redness and itchiness. Skin health is often totally restored and a sense of care, comfort and relaxation let the body and mind continue to heal.

Jeans Cream is very absorbent and won't stick to your clothing.

Rest assured that I personally offer a 30-day money-back guarantee on unused product returned.
